STEEL THE SHOW

A force within the dynamic USA nightlife and party scene, DJ Steel aka 'Steel The Show' shares the traits of his namesake, strong, dependable, cool and electric. Recognized for his insatiable mixing and scratching skills by young trendy movers and shakers, Steel has created a dynamic buzz and has established a loyal national fan base via SiriusXM / Pandora's satellite radio platform, with his distinct style, versatile sound, and undeniable skills. Born Naeem McCrae, Steel was exposed to music early on and learned the artistry of mixing sounds by his own mother, an avid New Jersey disc jockey.

Steel has become a brand of his own. Steady gigs at some of New York City's most lavish and well-known hot spots helped Steel build his clientele, and before too long, he had become the go-to deejay for many well-known celebrities.

Steel can be heard mid-days (12p-6p E) on SiriusXM The Heat (Ch. 46), interviewing some of today's hottest talent. Steel has not only become a staple for a national audience, but it's not uncommon to find him heating up venues across the country, catering to the elite set, and providing fresh and innovative sounds that cross all musical genres, as Steel continues to establish himself as one of the nation's premier talents.
